the PRIME series

QUASA has always been associated with high quality & reliable High Pressure Cleaners **BUT** due to the Covid Pandemic & MCO, we have slowed the development of our HPC series, however we feel that the time is now ripe to re-launch a new series for our loyal users albeit @ a better price, better specs despite the rising prices due to the commodity prices.

why PRIME series ?

if you have been following the **TRANSFORMER** series, the leader of the Pact is **OPTIMUS PRIME,** the heroic leader of the **AUTOBOT**s (the good robots) who fight against the **DECEPTICON**s (the bad robots). **PRIME** a skilled warrior represents braveness, selfless and fearless in defending mankind. Therefore, choosing these characteristics to represent our new HPCs would be a way forward and the new designs of our HPCs are also very close to the characteristics of the AUTOBOTs, hence we call our new launch **the "PRIME"series**.

the PRIME series are created mainly for the **domestic and semi-pro users ie, 1 to 4 hour usage** with close attention to the type of motor, power of motor and the resulting pressure that is produced for an effective wash be it your car, floor or whatever that you wish to clean. A good pump is necessary to ensure that the unit can last a good few years on frequent use. Therefore, we have chosen **the PRIME series** as our re-launch pad as we have carefully selected a factory that can give our users the assurance of **QUALITY & RELIABILITY** coupled with readily available parts @ reasonable price. **the PRIME series** represent sturdiness, reliability and effectiveness in getting rid of dirt & grime and at a very economical price. Pay a visit to our representative dealers and test for yourself.

If you wish to move into a heavier duty realm, try **the LAZEE series**, representing the **semi-professional and professional series** that are for use from **4 to 8 hour continuously**. Ask for advise from our representative dealers for a clearer explanation and recommendations.

thePRIMEseries

HPU-1076C(002100710)

2000W MEDIUM DUTY HIGH PRESSURE CLEANER (UNIVERSAL)

- **ECONOMICAL &IDEAL FOR HOME USE WITH BIG AREA;**
- **BUILT-IN THERMAL PROTECTORS;**
- **COMPLETE ACCESSORIES FOR IMMEDIATE USE;**
- **WHEELS FOR EASY MOVEMENT;**
- **UP TO 3 HRSCONTINUOUSLY;**

SPECIFICATIONS :

Description		Description	
Watt	2000 Watt	**Hose Length**	7m
Voltage	240V/1 Ph/50hz	**Inlet Hose**	2m
Motor Type	Universal	**AC Cable Length**	5m
Max Pressure	160 Bar	**G.Weight/N.Weight**	10.4 / 10.4kg
Max Flow Rate	432 l/hr or 7.2 l/min	**Measurement**	365*230*290mm
Stop Start	Auto		

HPU-1066C (002100610)
